May 20, 2026

Laurie A Oakland
918 Birch Ave
Escondido CA 92027-3903

To Whom It May Concern:

Laurie A Oakland is under my care at Scripps Clinic. I am writing this letter to document medical necessity for wheelchair use during cruise travel. I confirm that she has a diagnosed neurological condition which causes significant gait instability. A wheelchair is medically recommended and appropriate for safe mobility when embarking on excursions off the cruise ship from June 30, 2026 through July 14, 2026.

Sincerely,

Nicole Johnson, PA-C
Internal Medicine
