I, Laurie Oakland, live independently at home and I'm able to walk and move about in ordinary daily circumstances. I am a frequent and experienced traveler. The purpose of bringing the transport chair is not for shipboard medical treatment or ongoing medical care, but solely to assist with longer walking distances and mobility logistics during port excursions and related travel activities over the course of the cruise.

I do not require any prescription medication, medical procedure, or onboard medical service to be administered by Viking in connection with this request. No medication or dosage information is applicable.

The equipment to be brought onboard is as follows:

Equipment: Folding transport chair

Make / Model: Drive Medical Lightweight Expedition Aluminum Transport Chair

Frame type: Lightweight aluminum folding transport chair

Dimensions:

- Overall width: 22" open / 10.75" closed

- Seat dimensions: 19" W x 16" D

Folded: 38" H x 38" L x 10.75" W

Weight: 19 lbs

The transport chair is collapsible/foldable and is being brought for comfort and assistance during excursions and longer-distance walking situations. I will be traveling with responsible adult assistance as needed, including while on shore and during excursions.

A separate physician's statement confirming my fitness for travel and defining the limited need for the transport chair is enclosed.

Please let us know if any additional information is needed.

Sincerely,

Laurie A. Oakland
